

North Kent Scottish Society at Bexleyheath Central Library

It just shows that library services have changed from the days of sssh don't make a noise!

On Saturday 17th April, North Kent Scottish Association (jointly with Sidcup Caledonian Association) had a display stand at Bexleyheath Central Library to promote both Associations and Scottish Country Dancing in general. A helpful CD showing a variety of Scottish Country Dances and techniques was shown (details available from North Kent Secretary) as was a variety of music, photographs and memorabilia from both Associations. Members from both associations were on hand to talk about the fun that all enjoy at dance circles and monthly dances. This did prove of interest and create an awareness of Scottish Country Dancing to a number of visitors though how many will take this forward and join North Kent or Sidcup of course remains to be seen.

The suggestion of a dance display at the library later in the year (they recently had a display of Russian Dancing) is being considered and thus the MC's may well be arranging an appropriate dance programme and seeking volunteers to make up the sets.

Now where was that book on reels & jigs....?
